

YMCA NEWS

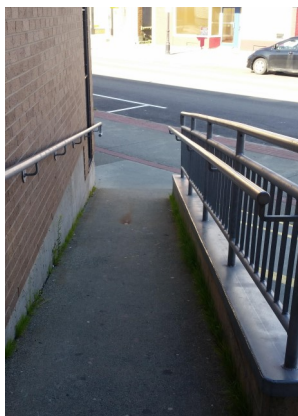

Our YMCA is recognized as a valued leader and partner at the centre of a safe and healthy community,inspiring everyone to reach their potential.

Accessibility for Everyone

Our YMCA pool offers the opportunity for anyone to come in for a swim. Our pool lift is specially designed for anyone to easily be lowered into the water. If you would like to use our lift, all that is needed is a simple phone call to let our staff know you will be coming in so we can set it up for you!

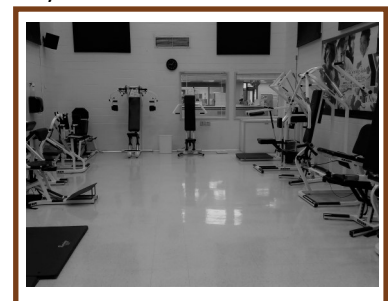

From automatic doors, to a ramp and handrails on the front of our building, to the friendly and courteous staff ready to assist you, we are here to provide you with everything you need. Our door is always open. And if its not, just press the button!

Our Special Needs/Family washroom is wheelchair accessible with hand rails for safety, as well as a baby changing table.

Showers are also accessible with wheelchair access. Seated chair provides stability while showering, and plenty of room inside for your chair.

Our wellness centre offers full access to air-assist equipment, as well as lots of floor space
